

PRESS RELEASE

profine Group acquires EFP International B.V. to expand into aluminium systems and facade solutions

Today (07.10.2024), profine Group announced the acquisition of EFP International B.V. (*EFP*), a Dutch-based company with a global footprint, specializing in the design, development, and production of aluminium profile systems for architects under the brand “EFP European Facade Products”.

Their offerings encompass a diverse range of systems, including curtain walling, skylights, aerofoils, louvers, sunshades, windows, doors, sliding windows and doors, as well as specialized systems for cladding sub-structures.

EFP meets the increasing demand for high-quality, advanced facade systems by merging European technology with efficient manufacturing practices. With a robust commitment to quality and over 45 years of international experience in developing and marketing aluminium facade systems, EFP's products are built on a solid foundation.

Operating from offices in the Netherlands, Kingdom of Saudi Arabia, Dubai and India, EFP brings extensive expertise within the global facade industry and giving services to U.K., Kuwait, Kingdom of Saudi Arabia, Qatar, Bahrain, United Arab Emirates, India, Pakistan, Egypt, Nigeria and the Netherlands to variety of buildings such as hotels, offices and hospitality, high rise buildings, sports, leisure and lifestyle, governmental building, hospitals and airports.

The acquisition of EFP marks an important milestone in profine Group's strategy to complement its existing product portfolio by high quality aluminium system solutions and further enhance its strong footprint within the global construction and renovation markets. In addition, this move will enable profine Group to expand its product offering for existing as well as new customers in international markets by leveraging its internationally well-known Kömmerling brand.

Dr. Peter A. Mrosik, Owner & CEO of profine Group, remarked: “This acquisition will unite two forces with the common goal of transforming the facade industry by offering innovative solutions to our valued customers, while pursuing a sustainable approach to preserving our environment, which is our primary concern.”

Bram Hannessen, former Owner and continued General Manager, commented: “I am delighted to have found in profine Group a strong partner with an entrepreneurial mindset that will support EFP and its motivated team to take the next step for further international growth.”
